1. Registration

1.1

In order to access the restricted area to edit and contribute with the Fortalezas.org Database, where you can post content and make contributions to the existing database, a previous and totally free registration is required.

First, click **LOGIN** on the home page.

1.2

You will be directed to the Login page.

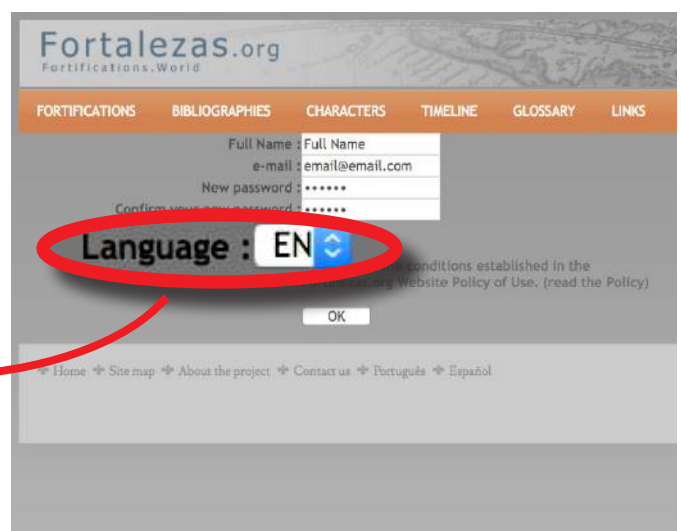

Press **Click here to register.**

1.3

To make the registration, enter in the fields your full name, your e-mail, your access password and the confirmation of that password. The chosen password must have between 6 and 10 alphanumeric characters.

Choose the **Language** in which you prefer to navigate the Website and click the **OK** button.

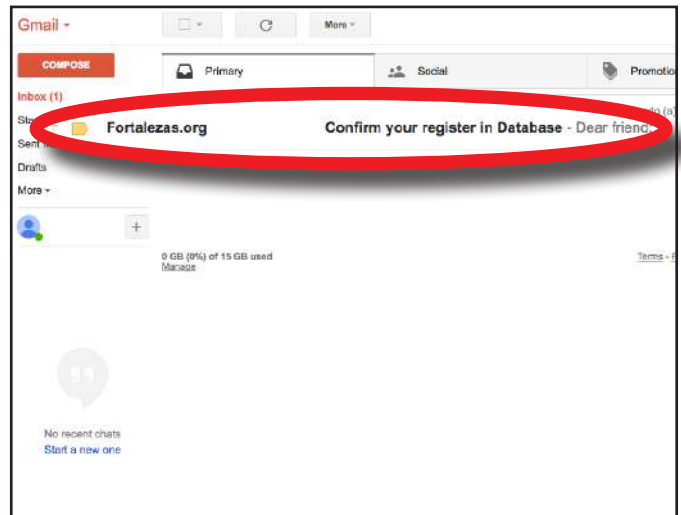

1.4

A notification will appear:

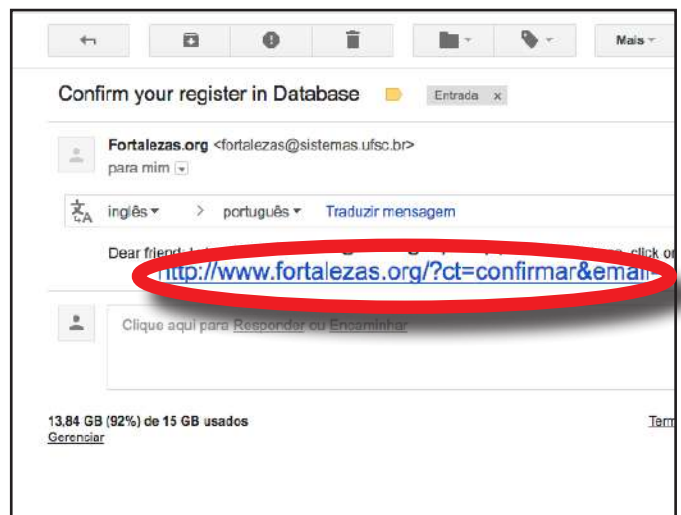

1.5

Check your email for the confirmation request.

1.6

Click on the **link** to confirm your registration.

1.7

You will be redirected and an activated account message will appear on the screen:

1.8

Log in with your email and password.

1.9

You'll be taken to your account page.

This is the main page of your restricted area of Fortalezas.org Database. You can later add more personal data.

2. Contribute to a Fortification

2.1

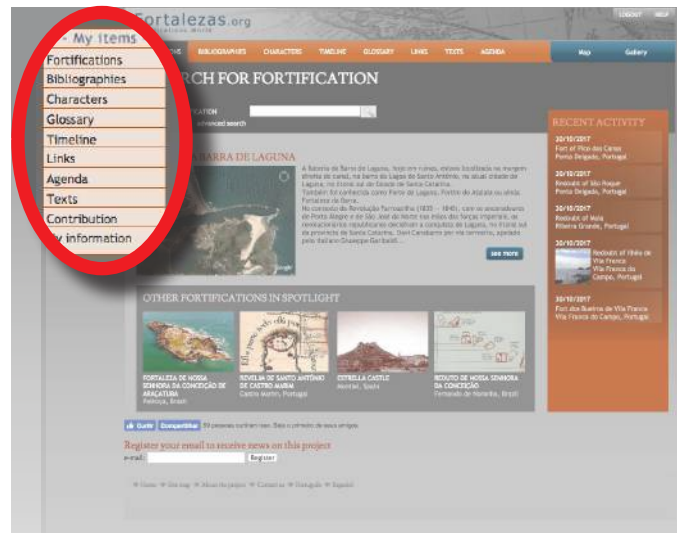

You can contribute to a fortification already registered with texts, videos, images, 360° panoramic images and CAD designs.

Click **Fortifications** > **Search for Fortifications**.

Search for Fortifications

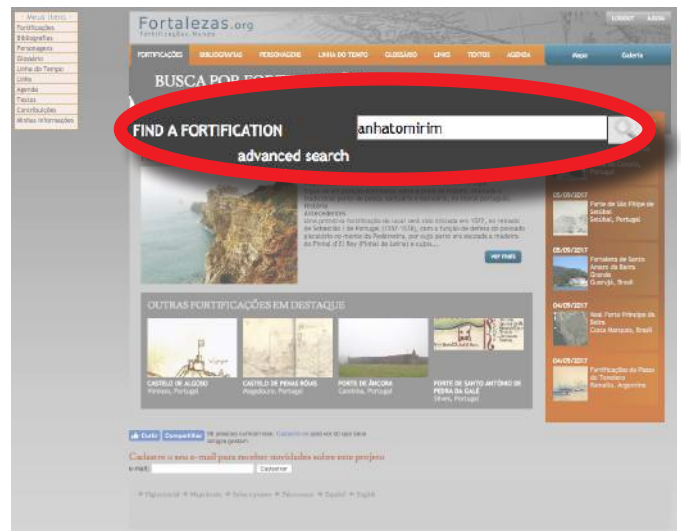

2.2

Note that the Website now stays with your personal Contribute Menu, called My items.

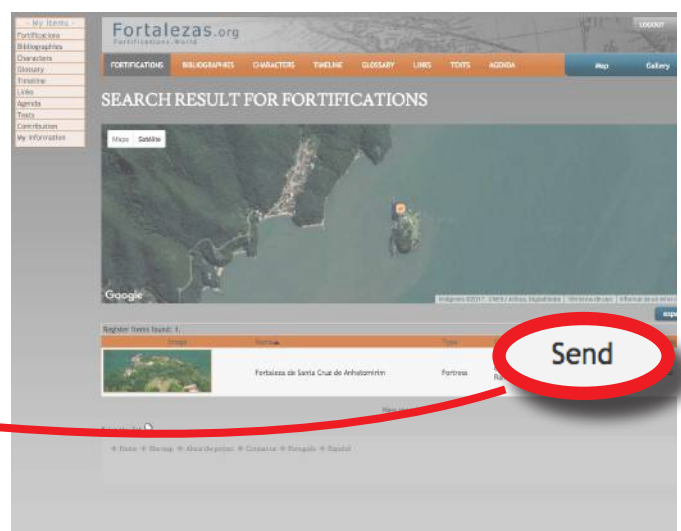

2.3

Search for the fortification you want to contribute by using the quick search field or by opening the **advanced search** form.

2.4

Check the name of the fortification and click the **Send** option.

2.5

This is the page to contribute with the intended fortification.

To contribute with text, write all your comments about this fortification. After that, click on the **Send** button.

The Tutor of the Fortification may accept your contribution in whole or in part, incorporating it into the main text. If this occurs, even partially, you will be credited to the Database as a contributor to that Fortification.

3. Contribute with Images

Before contributing, check if there is an image similar to the one you want to add on the respective Fortification page. Analyze whether your image adds any significant contribution to the Fortification.

The digital file must necessarily be of type .JPG, in the best available quality, especially in case of map images and fortification plans (iconographies).

Pre-prepare the digital file and all information for recording the photo using a text editor following the template (Attachment I). This step will accelerate the filling process and prevent the connection to time out.

3.1

To send images, click the **Images** option in the menu on the right.

3.2

Fill in the information previously prepared and click **Add New Image**.

Add new image

Fortaleza de Santa Cruz de Anhatomirim

First you fill out below and then you click in "Add new image" to select and send the file (jpg).

Denomination Portuguese:

Denomination Spanish:

Denomination English:

Category:

Description Portuguese (1758 remaining):

Description Spanish (1755 remaining):

Description English (217 remaining):

Credit:

Photograph: Roberto Tonera
August 17th, 2017.

In case of exact date, fill only the spot Date 1: (the spot Date 2 will be filled automatically with the same date). In case of a period, fill the start date in Date 1 and the end date in Date 2:

Year: Date 1: Date 2:

Add new image

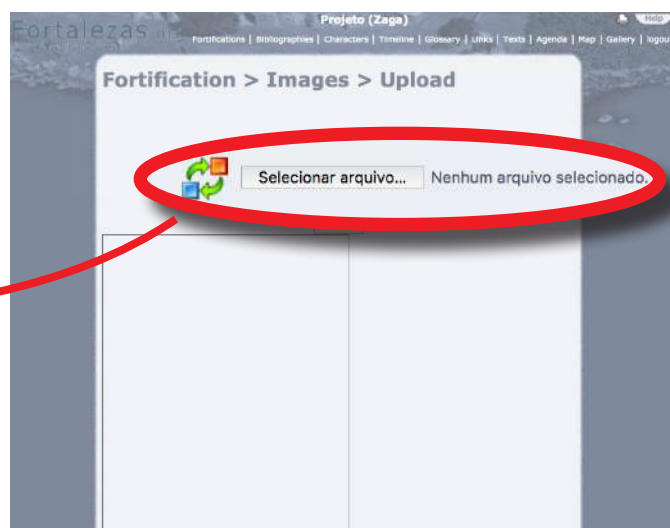

3.3

A message will appear, confirming that the Image has been registered:

3.4

Click **Choose File** to find the image.

3.5

Choose the .JPG file on your system.

3.6

Check the file name and click **Send**.

3.7

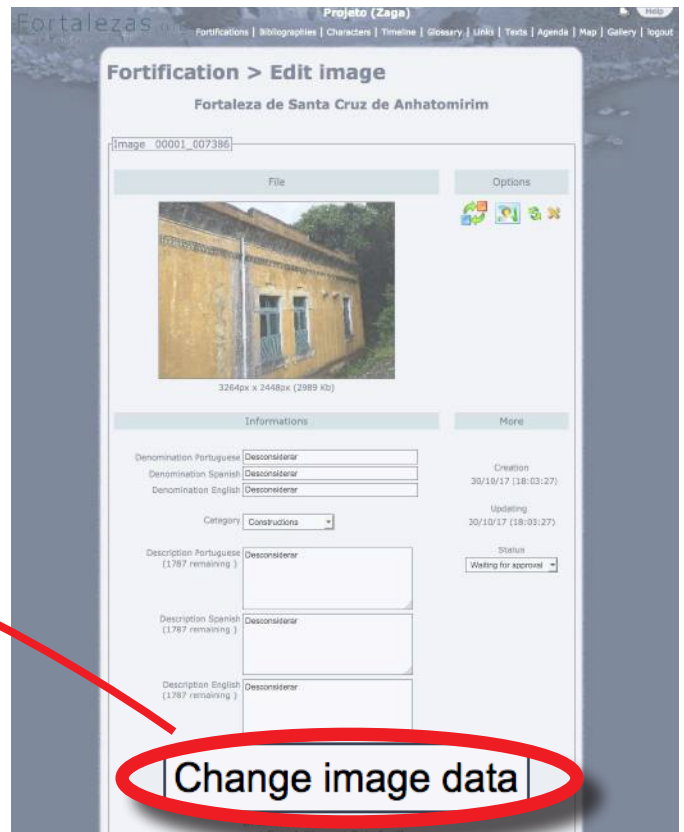

One message will appear confirming the upload and another one confirming the creation of the default thumbnail and standard image:

3.8

You will be redirected to the Edit images page.

Make any changes you need, and click **Change image data**.

3.9

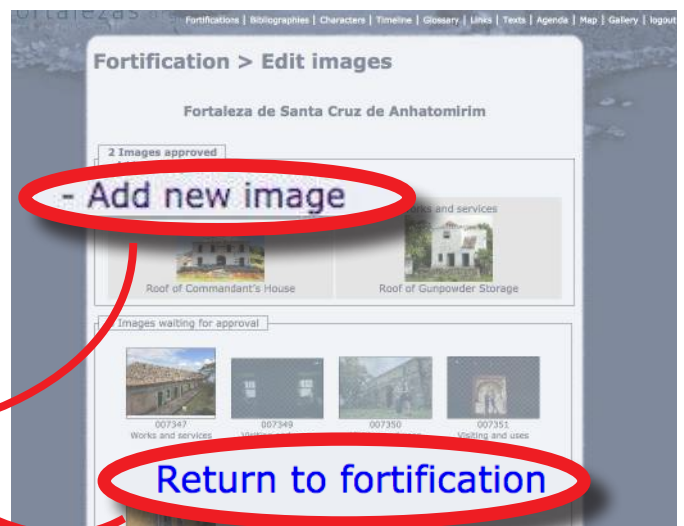

A confirmation message will appear:

3.10

Done! Now you will be forwarded to the page with all your images inserted for that Fortification. The newly inserted Image will be appearing as **awaiting approval**, until the Tutor of that Fortification accepts the contribution.

To continue contributing with other images, click **Add New Image**. To contribute with other kinds of media, then click **Back to the fortification**.

4. Contribute with Videos

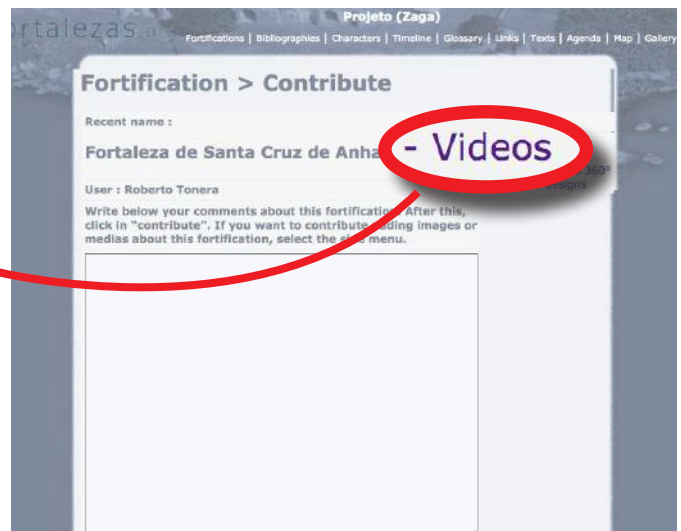

Check if there is a similar video to the one you want to add on the Fortification page. Analyze if your contribution is significant to the Fortification.

The video must be hosted on YouTube.

Prepare all the information for registering the video in an text editor following the model (Attachment II). This step will accelerate the filling process and prevent the connection to time out.

4.1

To contribute with videos, click the **Videos** option in the menu on the right.

4.2

Copy and paste the **Address** of the video hosted on YouTube.

4.3

Fill in the fields on the video editing screen with the information previously prepared and click **Change media data**.

4.4

A message will appear confirming that the video data has been registered:

4.5

You'll be taken to the Edit video page.

Make any changes you require, and then click **Change media data**.

Change media data

5. Include a Bibliography

Before inserting a new Bibliography in the Fortalezas.org Database, first make a search for the existing bibliographies, to confirm if it is not already registered.

5.1

Go to the **My items** menu, and select the **Bibliographies > New register** option.

5.2

A preliminary page will be shown once more to confirm if the Bibliography exists in the Database.

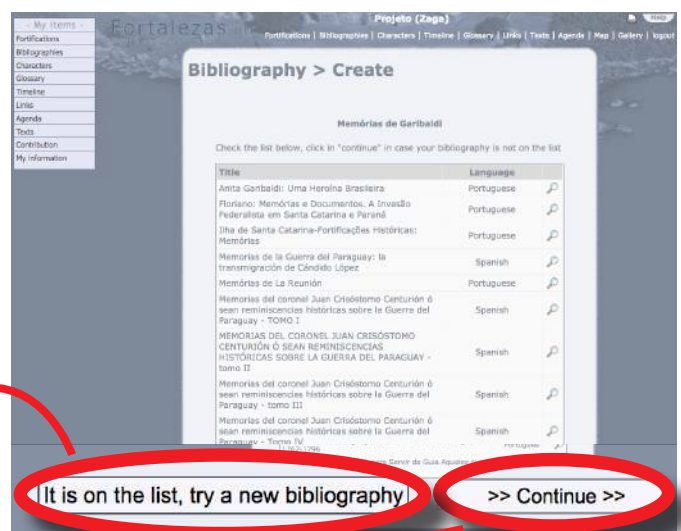

In the available field, enter one or more significant words of the title of the wanted Bibliography and click on the **Verify if it is already registered** button.

5.3

A list will be shown with all the bibliographies already registered in the database, containing at least one of the title words of the Bibliography.

If the Bibliography you want to add is already listed, click on **It is on the list, try a new bibliography**. If the bibliography does not already exist in the database, click **Continue**.

5.4

Then click **OK** on the following confirmation message:

Before contributing with Bibliographies, prepare the digital files of the full Bibliography (PDF) and a cover image (JPG), as well as all the information necessary for the registration in a text editor following the model (Attachment III).

This step will accelerate the filling process and prevent the connection to time out.

5.5

First, fill in or edit the **Relations** box with the fields: **Authors**, **Image** (Cover) and **File**. Always do this before filling in the other form fields.

In the **Authors** field, click the **Add Author** icon to open a new pop-up window.

A screenshot of a web application interface for editing a bibliography. The main title is "Edit bibliography" and the subtitle is "Memórias de Garibaldi". There is a yellow warning box at the top stating: "This Bibliography was updated at 31/10/17 13h00s and it is waiting for administrator approval. You can change the information any time you want. Click here to restore the recently published information and to delete the changes." Below this is the "Relations" section, which contains three fields: "Image", "Credit", and "File". The "Authors" field is highlighted with a red oval, and a red arrow points from the "Add Author" icon in this field to the text in section 5.5. The "Information" section below contains various form fields: "User" (Project Fortalezas Multimídia (Zago)), "Title" (Memórias de Garibaldi), "Type" (Select), "Publisher", "Edition", "Year", "City", "Language" (Select), "Comment", "Description" (Portuguese), "Description" (Spanish), and "Description" (English). At the bottom, there is a "Save" button and a "Related Fortifications" section with a "Define the order" button and a "Subtitle" section with a "Waiting for administrator approval" status.

5.6

Enter one of the author's names in the search field (preferably the last name) and click **Search**.

Among the authors that will be shown in the search result, double-click the correct one.

5.7

Click **OK** on the following confirmation message to return to the main registration form.

The name of the selected author will appear in the **Authors** box.

If you need to insert another co-author of the same bibliography, repeat the procedure above by clicking **Add Author** again.

5.8

If the name of the searched author is not in the available listing, you can register it yourself. To do this, at the bottom of the same auxiliary window, type the Name of the author in the three languages and click the **Save** button.

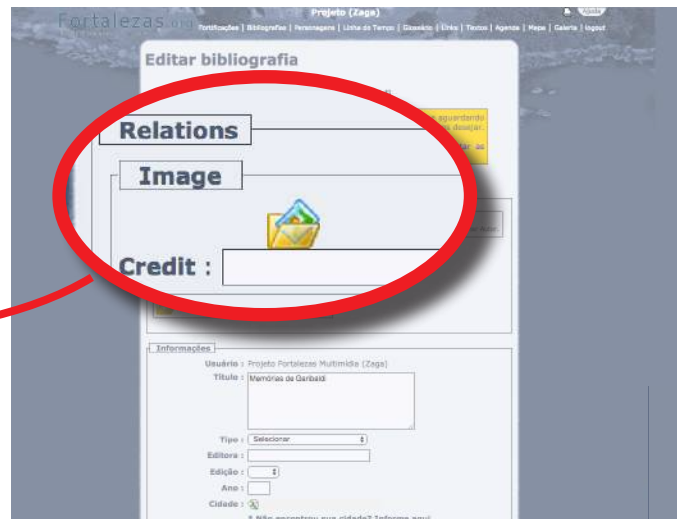

5.9

A message will inform you that the new author has been created and inserted in the main form.

5.10

Then, if available, insert an image (book cover, magazine, article illustration, etc.) by clicking on the open file icon.

5.11

On the next page, click **Choose File** to locate and load your desired image on your computer.

The image file must be in JPG format and approximately 150 pixels in the horizontal dimension.

5.12

Check the file name of the image that will appear on the page and click **Send**.

5.13

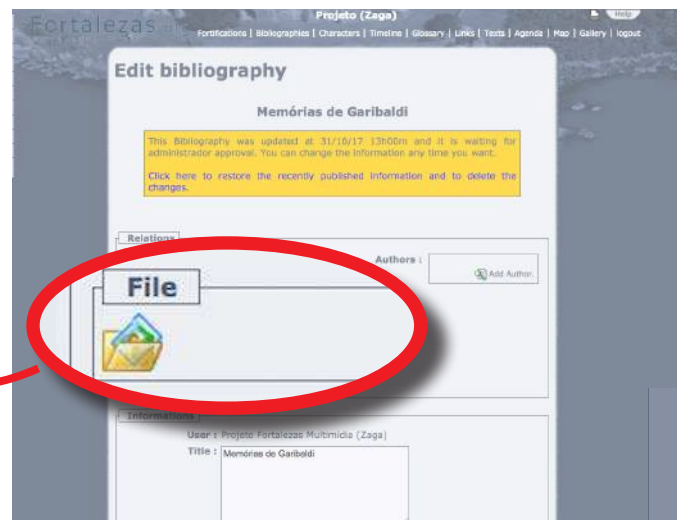

Three messages will appear confirming the upload of the file and that the changes for the Bibliography record have been saved.

Enter, then, the credit for the image in the available field.

5.14

To upload a digital file with the full contents of the Bibliography (PDF file) click on the open file 📁 icon in the **File** section.

5.15

On the next page, click the **Choose File** button to choose and upload the selected file on your computer.

Check the file name and click the **Send** button to submit the selected file to the Database server and automatically associate it with the Bibliography being registered.

5.16

A message will appear confirming the upload of the file:

5.17

Fill in the information previously prepared.

In the **City** listing, select the city where the Publisher or institution responsible for the publication of Bibliography is located.

A screenshot of the Fortalezas.org web application interface. The main section is titled "Relacionamentos" and contains three sub-sections: "Imagem", "Arquivo", and "Informações". The "Imagem" section shows a book cover for "Memórias de Garibaldi" by Giuseppe Garibaldi and Alexandre Dumas. The "Arquivo" section shows a "Download" button. The "Informações" section contains fields for "Usuário", "Título", "Tipo", "Editora", and "Edição". A red circle highlights the "City" field, which is currently empty. A red arrow points from the text in step 5.17 to this field.

5.18

If the city is not available in the list, enter it in the text field below, along with the name of the respective state and country.

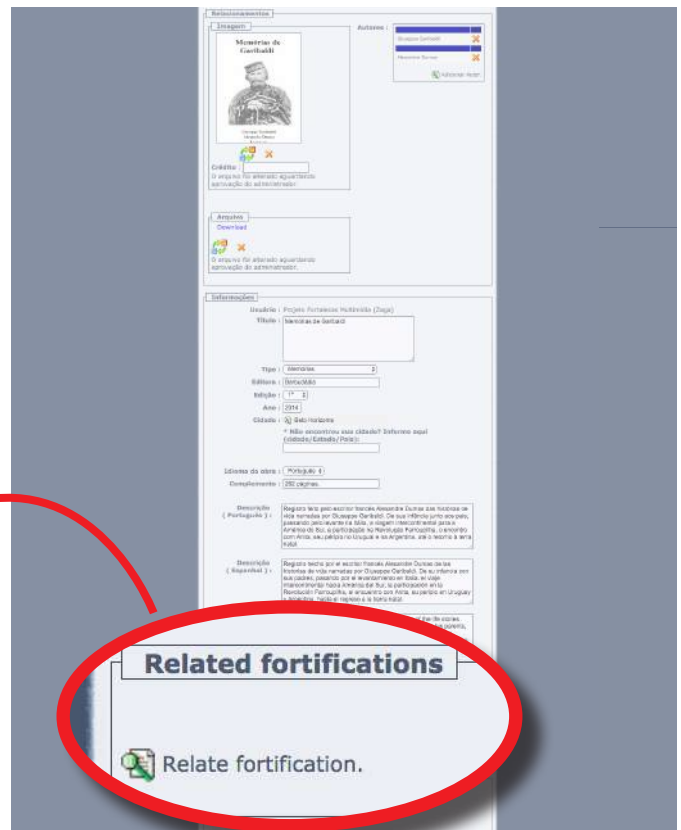

After completing the fields, click on the **Save** button and confirm the message.

A screenshot of the Fortalezas.org web application interface showing the "Select City" form. The form has a header "Fortalezas.org" and a "Select City" label. Below the label is a text input field containing "lisboa" and a "Search" button. Below the search field is a table with three columns: "Country", "State/Province", and "City". The table contains one row: "Portugal", "Lisboa", "Lisboa". Below the table is a "Save" button. At the bottom of the form, there is a message box that says "Data saved successfully! All submitted information must be approved by System Administration." and an "OK" button.

5.19

Only after saving the inserted data, you can, if the case, associate this Bibliography with a fortification registered in the Fortalezas.org Database.

To do this, click the **Relate fortification** icon in the **Related fortifications** box to open a new auxiliary window (pop up).

5.20

In this new window, enter a part of the name of the Fortification in the search field. Then click on the **Search** button.

Among the names that will be shown in the search result, select the one for the fortification (Do not forget to check the indicative column of the city where the fortification is located, since many of them have the same name).

5.21

After selecting the fortification, it will automatically appear related to the Bibliography in its main form field. Done!

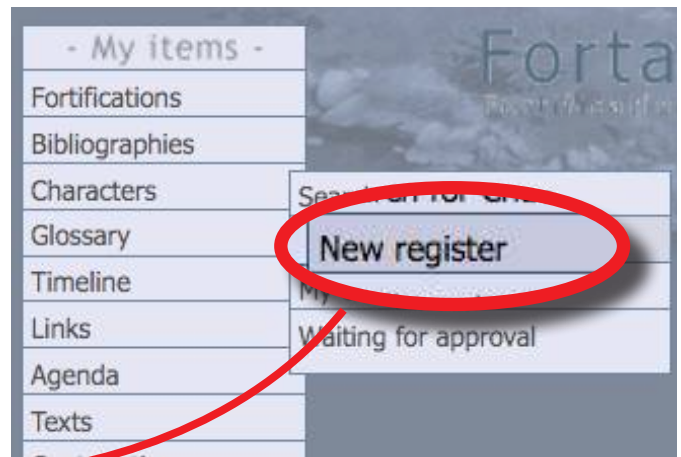

6. Include a Character

Before inserting a new Character in the Fortalezas.org Database, first make a search for the existing characters, to confirm if it is not already registered.

6.1

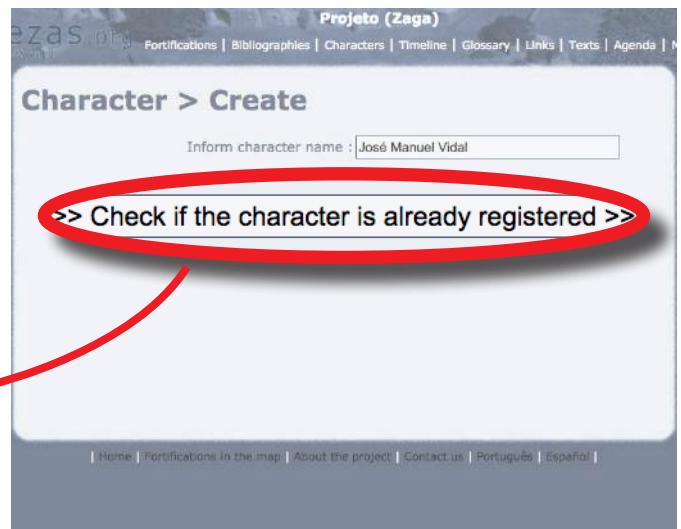

Go to the **My items** menu, and select the **Characters > New register** option.

6.2

A preliminary page will be shown once more to confirm if the Character to be inserted is no longer actually registered.

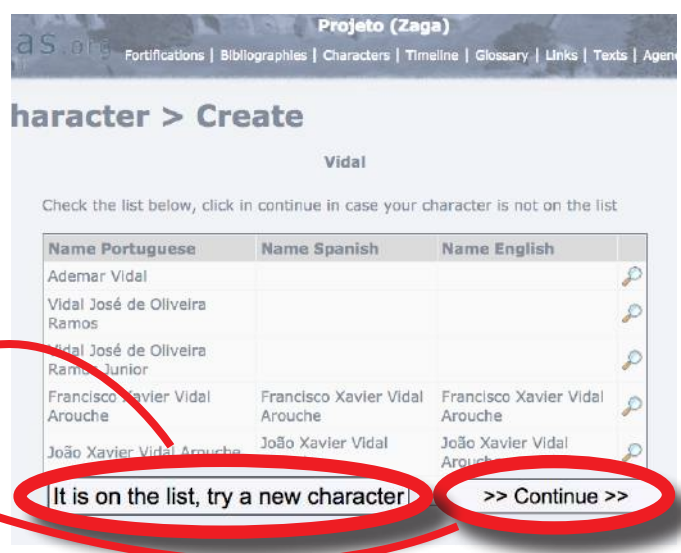

In the available field, enter one or more significant words of the name of the wanted Character, preferably the last name, and click on the **Verify if it is already registered** button.

6.3

A list of all the characters already registered in the Database will be shown.

If the Character you want to add is already listed, click on **It is on the list, try a new character**. If the character does not already exist in the database, click **Continue**.

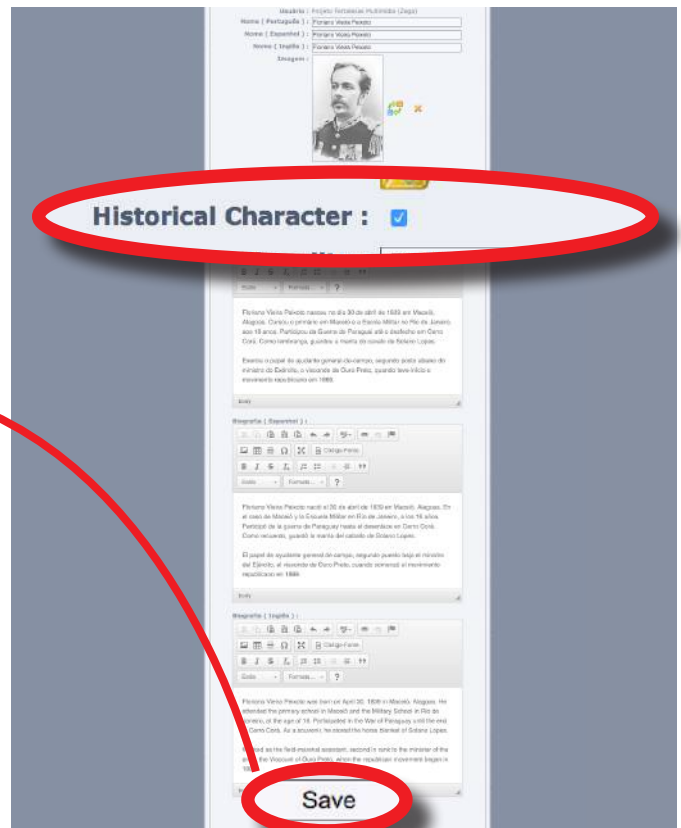

6.4

Fill in the fields with the information previously prepared (Attachment IV).

Make sure the **Historical Character** box is checked.

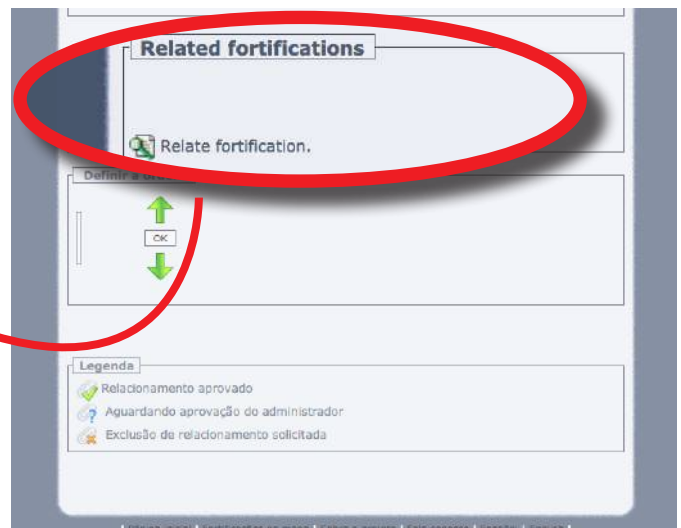

After completing the fields, click on the **Save** button and confirm the message:

6.5

Only after saving the entered data, you can, if the case, associate this character with a fortification existing in the Database.

To do this, click the **Relate Fortification** icon in the **Related Fortifications** box to open a new auxiliary window (pop up).

6.6

In this new window, enter one of the names of the fortification in the search field. Then click on the **Search** button.

6.7

Select the name of the desired fortification. Do not forget to check the column indicating the city where the fortification is located, since many fortifications have the same denomination.

Denomination	City
Redoubt of Folga	Santa Cruz da Graciosa
Redoubt of Formigal	Torres Vedras

6.8

After selecting the fortification, the auxiliary window will close automatically, and the fortification will appear related to the character in the respective main form field.

If a character is related to more than one fortification, you can order the listing of the fortifications according to their relevance to that character.

(Insgagem)	Name	Country	Status	Remove	Order
	Forte da Laje	Brazil			9999
	Forte Tamandaré da Laje	Brazil			9999
	Powder House	Brazil			9999
	Alloa Tower	United Kingdom			9999

Relate fortification.

Define the order

Powder House
Forte da Laje
Alloa Tower
Forte Tamandaré da Laje

OK

6.9

To do this, in the **Define the order** box, click on the name of the fortification you want to sort and move it up or down the list using its sort arrows.

After the ordering is complete, click the **OK** button to save the proposed ordering. Done!

Define the order

Powder House
Forte da Laje
Alloa Tower
Forte Tamandaré da Laje

OK

Define the order

Forte da Laje
Powder House
Alloa Tower
Forte Tamandaré da Laje

OK

7. Include a Link

Before inserting in the Fortalezas.org Database a new Link, first make a search for the existing links, to confirm if it is not already registered.

7.1

Go to the **My items** menu, and select the **Links > New register** option.

7.2

A preliminary page will be shown to once again confirm that the link to insert is no longer actually registered.

In the available field, enter the URL, that is, the complete and correct address of the link (website), without forgetting to include at the beginning of the address "http://" and click on the **Check if the link is already registered** button.

7.3

You will be shown a listing with all links already in the Database containing at least one of the words of the link being verified.

If the link you want to add is already listed, click **It is on the list, try a new link**. If the link does not already exist in the database, click **Continue**.

7.4

Fill in the information previously prepared (Attachment V).

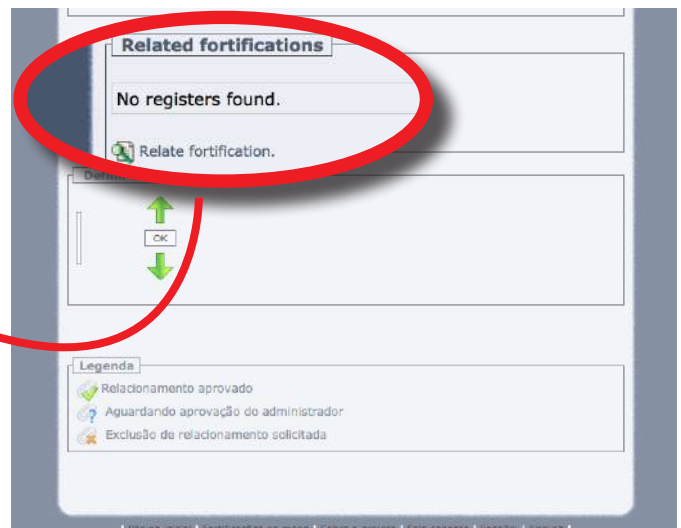

After completing the fields, click on the **Change link data** button and confirm the message:

7.5

Only after saving the entered data, you can, if the case, associate this link with a fortification existing in the Database.

To do this, click the **Relate fortification** icon in the **Related fortifications** box to open a new auxiliary window (pop up).

7.6

In this new window, enter one of the names of the fortification in the search field. Then click on the **Search** button.

7.7

Among the names that will be shown in the search result, select the name of the correct fortification. Do not forget to check the column indicating the city where the fortification is located, since many fortifications have the same denomination.

Denomination	City
Powder House	João Pessoa
Powder House	Montevideo

7.8

After selecting the fortification, the auxiliary window will close automatically, and the fortification will appear related to the Link in the respective main form field.

If a link is related to more than one fortification, you can order the listing of the fortifications according to their relevance to that link.

(Imagem)	Name	Country	Status	Remove	Order
	Forte da Laje	Brazil			9999
	Forte Tamandaré da Laje	Brazil			9999
	Powder House	Brazil			9999
	Alloa Tower	United Kingdom			9999

Relate fortification.

Define the order

Powder House
Forte da Laje
Alloa Tower
Forte Tamandaré da Laje

OK

7.9

To do this, in the **Define the order box**, click on the name of the fortification you want to sort and move it up or down the list using its sort arrows.

After the ordering is complete, click the **OK** button to save the proposed ordering. All right!

Define the order

Powder House
Forte da Laje
Alloa Tower
Forte Tamandaré da Laje

OK

Relation order defined.

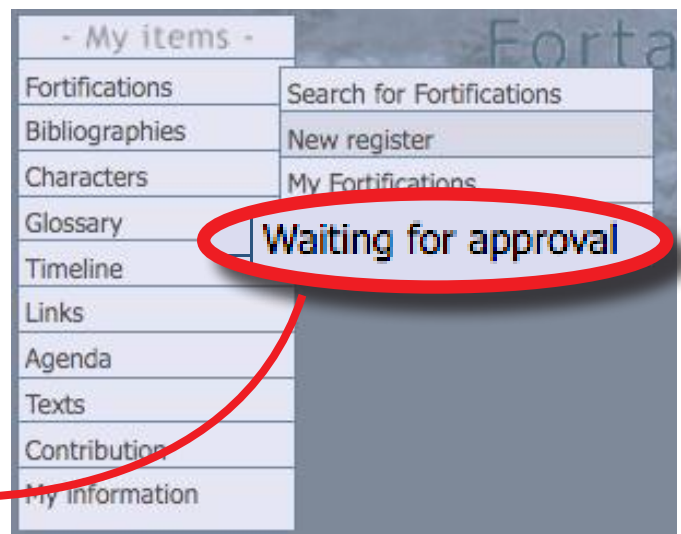

OK

8. Include a New Fortification

8.1

Before entering a new fortification in the Fortalezas.org Database, first make a search for existing fortifications, to confirm if it is not already registered.

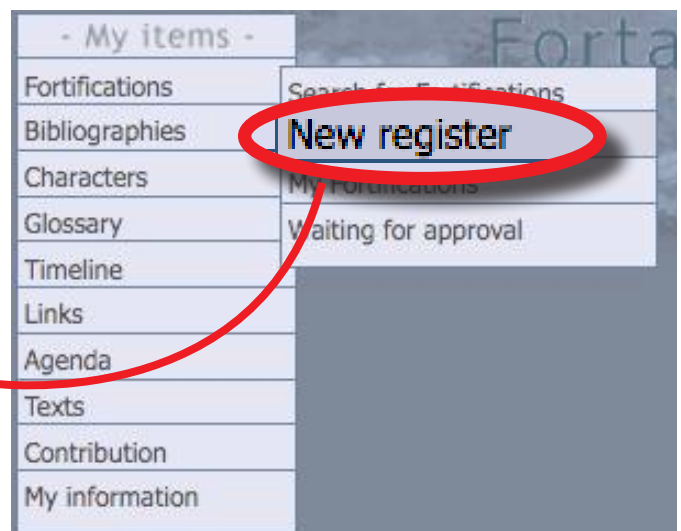

Do not forget to also search for the fortifications that you are the Tutor of and that may be awaiting approval from the Administrator (see in the **My items** menu on **Fortifications > Waiting for approval**).

8.2

Before adding a new Fortification, prepare all information for registration in a text editor following the template (Attachment VI).

After this confirmation, go to the **My items** menu, and select the **Fortifications > New register** option.

8.3

A form will open to be filled with the fortification data.

In the **City** item, click the icon  to open a new auxiliary window (pop up).

8.4

Enter one of the correct city name in the search field.

Country	State/Province	City
Portugal	Lisboa	Lisboa

8.5

Then click on the **Search** button. Select the city from the names that will be displayed in the search result:

Country	State/Province	City
Portugal	Lisboa	Lisboa

8.6

If the specific city is not available in the listing, enter it in the field below, along with the name of the respective state and country.

To enter the **Geographic coordinates** data for the fortification, do not enter anything in the blank field.

Click the icon  next to the field to automatically open a new pop-up window with a Google Map app.

8.8

At the top of this new window, select one of the available viewing modes: **Map**, **Satellite** or **Hybrid** (if any).

Use the navigation commands and the vertical zoom bar to locate the fortification being inserted.

8.9

Double-click with the mouse pointer positioned exactly over the fortification location area. Click on the **OK** button.

8.10

The geographical coordinates of the center point of the image will be automatically recorded and converted to degrees, minutes and seconds of latitude and longitude:

anyone (reset)

SECRETARIA DE ESTADO DE LISBOA

Antônio Correia Lisboa

José Correia Lisboa

Saint Anthony of Padua

Create:

Name (PT) :

Name (ES) :

Name (EN) :

Save

8.13

The auxiliary window will close automatically, and the new owner will have been created and inserted into the main form.

The fortification **Owner** is not necessarily your Maintainer, who must be informed in the specific field below in the form:

8.14

In the **Maintainer** item, click the icon to open a new auxiliary window (pop up) and type in the search field one of the names of the maintainer you want.

If the name of the wanted maintainer is not in the available listing, you can register it yourself.

8.15

In the **Beginning of construction** item, in the **Date 1** field, enter with four digits the date the fortification began to be built. Choosing also, the option **BC** or **AC** (Before Christ / After Christ).

Similarly, in the **Conclusion of construction** item, in the **Date 1** field, enter the date when the fortification was completed.

8.16

Similarly, in the item **Disappearance**, if applicable, enter in the **Date 1** field the date that the fortification disappeared, was demolished or destroyed definitively (a fortification in ruins, for example, is not considered missing).

In all cases, fill in the **Date 1** field only when the date is accurate (the **Date 2** field will be automatically filled with the same date). If the **Beginning**, **Conclusion**, and **Disappearance** dates are not exact, but rather a period between dates, fill in the starting date in the **Date 1** field and the end date in the **Date 2** field.

te 2:

1	1739	Date 2		BC
1	1747	Date 2	1763	BC
1		Date 2		AC

out visiting hours, including weekends

8.17

After completing the fields, click on the **Save** button.

Data saved successfully! All submitted information must be approved by System Administration.

OK

8.18

Now that the fortification is created, you can proceed with your edition and insert media related to this fortification (**Images**: photographs, plans, maps, **Videos**, 360-degree panoramas and CAD drawings). You can also relate this fortification with **Bibliographies**, **Characters**, **Links** and **Texts**.

After saving the form data, you will be the **Tutor** of this fortification. Only you and the Database Administrator Fortresses.org may edit this form, complementing or changing the information registered. Other users may only be **Contributors**, suggesting you changes or additions to those content. Upon approval of the Administrator, the fortification data will be published.

You, as **Tutor**, can edit (change or supplement) the data registered for this fortification as many times as you wish, while the fortification is not approved by the Administrator, by accessing the **My items** menu, and selecting the **Fortifications > Waiting for approval option**.

Once approved, any new edition by the Tutor must be approved again by the Administrator. The previously published data on fortification are still being viewed by the public until the Administrator approves the new version edited by the Tutor.

By accessing the **My items** menu, and selecting the **Fortifications > My Fortifications** option, the Tutor can access the fortification entered, after the new fortification is approved by the Administrator.

All information entered by you on this page and in any other area of the Fortalezas.org Database is at your own responsibility. Read more about this accessing the **Website Policy of Use** in the **About the project** section. If you need to contact the Database Administrator, send an e-mail to: roberto.tonera@ufsc.br.
